

A Shrine to Jesus

Whether or not we believe in God the yearning for a Second physical Coming of Jesus may not be fulfilled while hazards remain for a repeat of His earlier fate; the yearning could be satisfied by imbuing our conscious awareness with goodness and the love practiced by Jesus which is up to each of us.

Jesus was a human born to express love among all people and this is recognised globally by numerous beliefs, philosophies and religions. Love is now being sign-posted by the imperative TASKS (acronym for Truthfulness Accountability Service Kindness Synthesis) to try to reduce corruption, bloodshed and many woes among humans and danger to all living things.

The Age of Aquarius is for the teaching of love and integrity by example among us to complement all beliefs and religions which - *after* practicing TASKS - can remain autonomous.

The name Jesus was suffixed 'Christ' (anointed) after which the Romans created Christianity not necessarily to continue His teaching but to extend their power over followers. Religions do not affect or produce much love or succour for the needy but do cause greed, division and confrontation resulting in poor and sick ways of human conduct 'unfit for purpose' of betterment.

Could renewed integrity and love be propagated by example from our leaders and from the people? TASKS for PEACE (the acronym for Peoples Ethical And Cultural Excellence) become 'best practices' by which to develop 'A Shrine to Jesus' about Who so many, seemingly, have high regard but do not copy.

Click 'Help' in the mind - think 'could I and how?'
